Lift Up Storage Bed Hinge (LBH 101)

Compo lift-up storage bed hinge design provides a high hydraulic lift at tilt-position and an extra level-position that will give you more storage in your bedroom than any other bed on the market. It features:

- Level-position that will allow you to access every corner beneath the bed and it makes bed making more convenient than ever.
- A total of 4 gas lifts are used to guarantee smooth, slow, effortless transitions in all positions.
- A manual safety lock that will lock the mechanism while the user is accessing the storage.

Various Positions

	<p>Tilt Position</p> <p>This position will allow easy access to the storage space under the bed.</p>
	<p>Level Position</p> <p>This level will serve 2 functions. Firstly, it allows the access to the front area. Secondly, it allows easy bed making, especially at the head board section.</p>

Standard Components

	<p>8x screws & nuts</p>	<p>750N X 2</p>	<p>200N X 2</p>
<p>Mechanisms (X2)</p>	<p>Crosslinks (X2) -Crosslink length can be adjusted to fit the bed frame design.</p>	<p>Gas Lifts 750N(X2) -Gas Lifts need to be matched to the weight of the mattress. Available gas lifts are 650N, 750N, 850N, 950N and 1100N</p>
